DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by McCullough (6,139,828).

McCullough exemplifies a cleansing composition comprising 0.48g of chamomile extract; humectants such as 0.15 methyl paraben; solubilizers such as 0.08g of phenoxyethanol; 0.48g of panthenol and the balance being water (example 1,2 and claims).

As this reference teaches all of the instantly required it is considered anticipatory.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 10-11 and 20-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Booker et al (2003/0069148).

Art Unit: 1751

Booker et al disclose a cleansing formulation which may be in the form of a wipe (0097-0098); comprises 0.1 to about 2% by weight of an emollient (0025); 0 to 10% by weight of an humectant (0056); vitamins such as panthenol (0062); and 0.01 to about 10% by weight of chamomile extracts (0090).

Booker et al teach all of the instantly required except a specific teaching of each of the claimed components in an example. It would have been obvious to one of ordinary skill in the art to combine the components of Booker et al to specifically teach applicant's claimed composition because each of said components are taught and required by Booker et al.

Allowable Subject Matter

5. Claims 5-9 and 12-19 are allowed.
